Bluetooth Speaker

User Manual / Installation

Bluetooth Speaker

TECHNICAL CHARACTERISTICS

· Bluetooth allows you to connect your smart device to the speaker located on the back of the mirror.

· The range of the Bluetooth technology is 15 m.

SPECIFICATIONS

Frequency range:	100 Hz - 20 kHz
Range	15 m
Type of speaker:	Active
Speaker power	6 W
Power consumption	~ 6 W
Component power supply	12-24 V DC
Input voltage of the power supply	230 V AC
Output voltage of the power supply	12-24 V DC (depending on the type of LED)

BLUETOOTH CONNECTION INSTRUCTIONS

1. First, connect the mirror to the power supply.

2. Once the mirror is powered, a sound will indicate the activation of the speaker.

3. On your smartphone, enable the Bluetooth function and select the device named "Artalo" or "AD" from the list of available devices. If the Bluetooth speaker requires a PIN code for pairing, enter PIN: 0000 (or, alternatively: 1111).

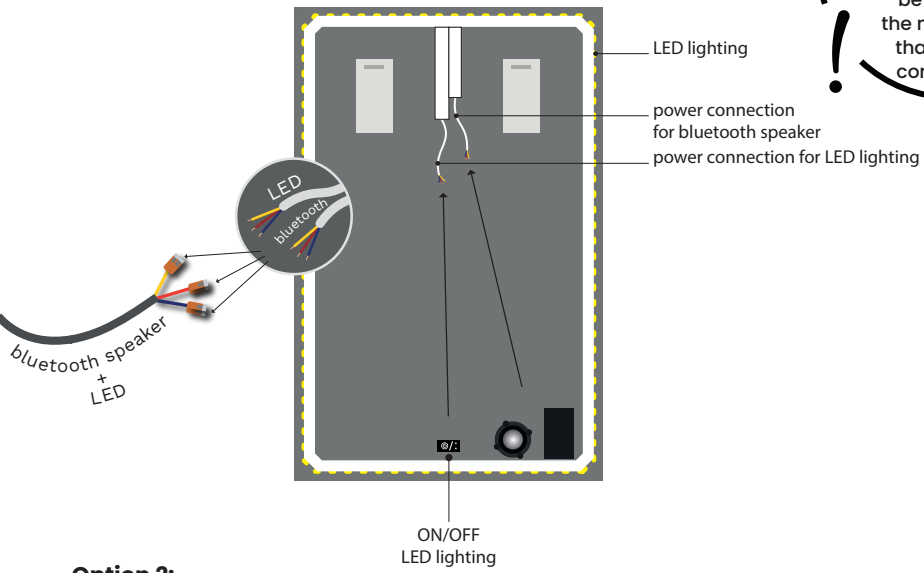
4. After connecting to the "ARTALO" or "AD" speaker, you will hear a sound confirming the connection to your smartphone.

Recommended connection options for connecting the mirror to the power supply

Option 1:

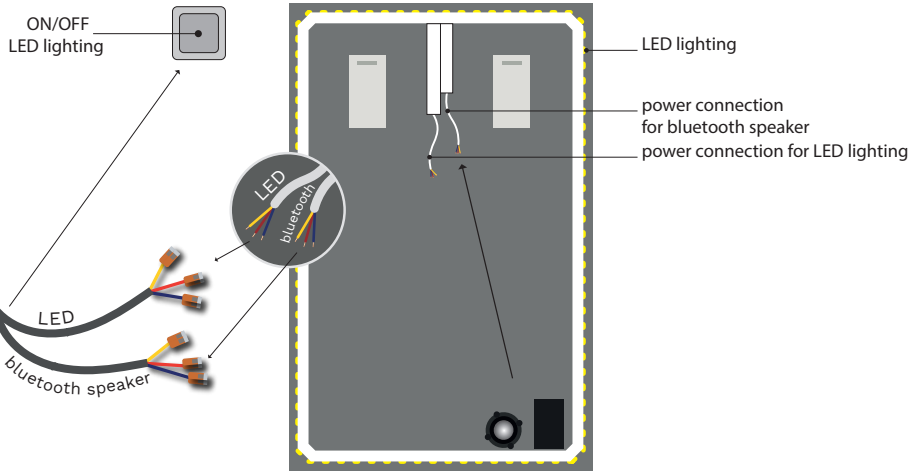
Connection of the LED mirror lighting and the Bluetooth speaker to the power supply when selecting the touch button/sensor switch.

If you have selected another additional component for the mirror, the wiring diagram for its connection can be found in the manual for that specific component.

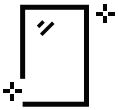


Option 2:

Connection of the LED mirror lighting and the Bluetooth speaker to the power supply when selecting an external switch.



Each component has its own manual with a wiring diagram.



Thank you for choosing our product.
