DARAMIJ

Modern LED-Lit Mirrors for Every Interior.

CCT

Remote Control LED CCT + ZigBee MiBoxer Receiver

User Manual

Remote Control LED CCT + ZigBee MiBoxer Receiver

TECHNICAL CHARACTERISTICS

Using the remote control, you can set the temperature and intensity of the mirror's LED lighting.

PACKAGE CHECK

1. Ensure that the remote control is not damaged. In case of damage, contact us.

2. The remote control is already paired with the receiver, which is connected to the mirror's LED lighting.

REMOTE CONTROL INSTALLATION

The remote control is equipped with a magnetic holder. Attach the holder to the desired location using the strong adhesive tape on the back of the cover. The remote control can be easily removed and returned thanks to the strong magnetic holder.

LED LIGHTING CONTROL

Power On/Off:
Use the "ON" button to turn on and the "OFF" button to turn off the LED lighting.

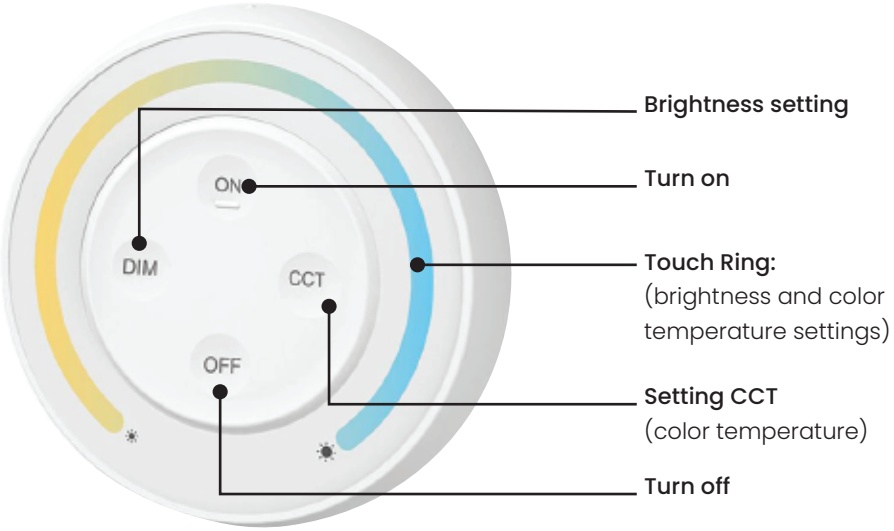
Brightness Adjustment:
Use the "DIM" button to increase or decrease brightness.

Color Temperature Adjustment:
Use the "CCT" button to change the color temperature (CCT) and switch between warm white, neutral white, and cool white.

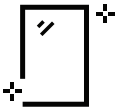
Touch Ring:

The touch ring can be used for fine adjustments of brightness and color temperature.

The controller automatically switches to brightness adjustment if not used for 3 seconds.



If you have a smart home equipped with a central unit (ZigBee smart hub), the lighting can also be controlled via your phone or another remote control supporting the ZigBee protocol.



Thank you for choosing our product.
